

## Impact-Resistant Flexible Tag **MT-CF1**

**Heavy-Duty Tag with Impact Resistance and Strong Adhesive**

### **Impact Resistance and Strong Adhesive**

Elastomer-covered tag with superior impact resistance and strong adhesive

### **Water Resistance and Curved Surface Conformability**

Water resistance equivalent to IPX7, suitable for curved surfaces

## Specifications

|                            |                   |
|----------------------------|-------------------|
| Product Name               | MT-CF1            |
| Read Range (m)             | ~9                |
| Dimensions (mm)            | 29×89×8.5         |
| Cover Material             | Elastomer         |
| Tag Color                  | Blue              |
| Operating Temperature (°C) | -40~75            |
| IC Chip                    | Impinj Monza R6-P |
| EPC/USER (bit)             | 128/32            |
| Water Resistance           | IPX7              |

\*Product appearance and specifications are subject to change for improvement without prior notice.

\*The read range is an estimated value based on measurements taken using Voyantic Tagformance Lite and is not a guaranteed specification.

\*Operating temperature and water resistance performance have been verified under our internal test conditions; however, these are not guaranteed values.

## Applications

▲ Construction Equipment

▲ Gas Cylinder

▲ Oil Drum

### Important Safety Information

#### CAUTION

- This product is intended for use as a consumable item. Please note that we do not provide repair services.
- While the product is designed to withstand various environments, please ensure it is suitable for your specific operating conditions before use.
- Please ensure that you thoroughly review all precautions provided in the accompanying binder before use.

### Warranty

As this product is classified as a consumable item, we do not offer warranty coverage for failures occurring after use. However, any unused defective product reported within one year of purchase will be replaced.
